Art Unit: 1745

1. The disclosure is objected to because of the following informalities: on pages 3, 4, 5 and 6 of the present specification, several claims are referenced. This is improper and the same should be cancelled.

Appropriate correction is required.

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1, 3-5, 7-9 and 12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. (New Rejection)

The non-porous and porous water permeable membranes of each of claims 1 and 12 are unclear. It is suggested that applicant amend these claims to recite the pore size of each membrane to clarify the differences between the two membranes.

Claims 3-5, 7-9, dependent on claim 1, fall therewith.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to John S. Maples whose telephone number is 571-272-1287. The examiner can normally be reached on Monday-Thursday, 6:15-3:45, and every other Friday.
